

Creation Answers Book

The Creation Answers Book provides biblical answers to over 60 important questions that nearly everyone wants to know on creation / evolution and the Bible! Not only does it answer your own questions, but equips you to effectively respond to those who resist the Gospel because of secular science. Questions include, Does God exist? --- Six days really? --- What about gap theories? --- What about carbon-14 dating? --- How can we see distant starlight in a young universe? --- How did bad things come about? --- Who was Cain's wife? --- How did all the animals fit on the ark? --- Where are all the human fossils? --- How did the different races arise? --- What about dinosaurs? and more. It is one of the most powerful presentations to show that the Bible is fully trustworthy.

15 Reasons to Take Genesis as History

This booklet succinctly shows why those who believe in the inspiration of Scripture have no intellectually honest choice but to take Genesis as straight-forward history, just as Jesus did. It powerfully challenges one of the major problems in the church today that affects the authority of the entire Bible. Read it, and give it to your pastor or anyone contemplating theological training. It could save them from being derailed by some of the misleading arguments common in theological academia.

Stones and Bones

This popular booklet has been revised and updated with additional information. Offers basic reasons for rejecting evolution in favor of creation. Easy-to-understand explanations on fossils, "missing links", mutations, dinosaurs, natural selection and more.

Reasonable Faith

The book especially targets atheists and others with little familiarity with the Bible. It works through three steps: 1. Nature demonstrates that a supernaturally powerful, non-material Creator exists. 2. History and archaeology demonstrate that the biblical records are historically accurate and allow us to approximately date when they were written. 3. Prophecies in the Bible fulfilled long after they were made show it is a revelation from God. Volume I covers the existence of God, focusing on scientific evidence about the origin of life and the age of the earth. It also covers the nature of humanity, the Fall, and the Flood. Volumes II and III cover the Old and New Testament respectively. First the historicity of the records of the Bible is shown through archaeology and historiography. Then inspiration is demonstrated through fulfilled prophecies. Simultaneously, major truths are explained, including the nature of God, sin and its punishment, and salvation by grace through faith in Jesus Christ.

Does God Exist

This booklet contains chapter one from *The Creation Answers Book*. It answers the commonly heard questions about the existence of God, such as: Is there objective evidence for God's existence? What are the consequences of atheism? Where did God come from? Can we know God personally? Includes evidences for God's existence from outside the Bible.

VIDEOS

God of Wonders

God of Wonders is a remarkable journey of discovery as we explore the Creator's handiwork and what His creation reveals about His character. It is a breathtaking tour of God's creation wonders, visible and invisible, and the greatest wonder of all---His redeeming love!

Question of Origins

The video *A Question of Origins* is a 60 minute presentation of convincing evidence from many fields of science to show that Darwinian evolution can not be true, but that creation fits the evidence. It also introduces the Creator. There is also a 16 minute abridged version of this presentation. Also has three other features. 1. *From a Frog to a Prince* giving effective evidence for creation and against evolution (28min). 2. "Good test" showing we are sinners needing a Savior (17min), and 3. "Platform 6", pantomime demonstrating the true values in life. These are in Mandarin and English.

Darwin: The Voyage

The year 2009 marked the 200th anniversary of Darwin's birth and the 150th anniversary of the publication of his book, *Origin of Species*. *The Voyage that Shook the World* retraces Darwin's journey, exploring the places and discoveries crucial to the formulation of his Theory of Evolution, and shows his faulty assumptions and character flaws. Filmed in South America, UK, North America, Australia and Europe, *The Voyage* features dramatic period recreations and stunning nature cinematography interwoven with scholars sharing their perspectives on the man and the controversies.

Intelligent Design

Outstanding and very powerful DVD with two 60 minute presentations which very convincingly demonstrate Intelligent Design: 1.) *Unlocking the Mystery of Life* shows graphically the incredible amount of information and complexity in a cell; 2.) *The Privileged Planet* shows how amazingly fine-tuned the earth is to support life and uniquely positioned to view the universe. Both are in Mandarin, as well as English.
